

Encourage children's learning!

Now that school has started back up, this is a great time to think about different ways to encourage young children's learning!

Ways to encourage learning

- Do a play activity & read with the child every day
- Support and encourage the child's ideas and persistence with an activity (even if the activity is difficult)
- Be enthusiastic about school projects
- Parents and teachers collaborate with one another
- Start with easy learning activities and gradually increase the challenge as child seems ready
- Focus on the child's strengths rather than his/her weaknesses
- Project a positive image of the child's ability in the future

Searching for entertaining resources for playing with children? Take a look at some of the options offered through Incredible Years® (puppets, card games, problem solving books, etc.)! Go to this link: <http://incredibleyears.com/parents-teachers/for-parents/>
