Handouts & Refrigerator Notes
Child-Directed Play

NOTE: The handouts in this section may be kept as master copies and photocopied for reuse with your parent groups. All copyright information must be maintained and you may not alter any of the content on these materials. These handouts are also available on our website, www.incredibleyears.com (in Group Leader Resources section).
**Child-Directed Play Promotes Positive Relationships**

**Home Activities for the Week**

🚀 **To Do:**

- **PLAY** for 10 minutes each day with your child. Be child directed and follow your child’s lead. Try some pretend play, express your joy to your child when playing, and sing with your toddler.

- **KEEP TRACK** of play periods on the “Record Sheet: Play Times” handout or in play journal and bring to the next session.

- **RECORD** your child’s developmental milestones on the “Things I Can Do” checklist (pg. 72-75).

- **COMPLETE** Toddler Proofing checklist for Part 1 & Part 2 (pg. 61-66 in book) and Toddler Temperament (pg. 67-68)

📚 **To Read:**

Part 1: Child-Directed Play ©The Incredible Years®
**CHILD-DIRECTED PLAY**

- Encourage your child to explore new objects, settings & people
- Follow your child’s lead
- Pace at your child’s level
- Don’t expect too much—give your child time
- Don’t compete with your child
- Praise and encourage your child’s self-discovery and creativity; don’t criticize
- Engage in pretend and make-believe with your child
- Be an attentive and appreciative audience
- Give your toddler choices when possible
- Allow your child to change her mind; be process oriented vs. product oriented
- Curb your desire to give too much help—give just enough support to avoid frustration but not so much you take over your toddler’s exploration
- Reward quiet play with your attention
- Laugh and have fun

I practice child-directed play
Parenting Pyramid®
Toddlers (1 - 3 years)
Parents and Children “Having Fun”

What is the value of play? Why is play important for children?

1. The most obvious benefit from play is that it aids physical development. When children run, jump, skip, yell, and laugh, it contributes to their good health and the development of gross motor skills as well as perceptual motor skills.

2. Play is a learning situation for children and parents. Play is an opportunity for children to learn who they are, what they can do, and how to relate to the world around them. Through play, children are able to discover and explore, use their imagination, solve problems, and test out new ideas. Through these experiences children gradually learn how to gain control over their environment, and they become more competent and self-confident. How often have you heard a child proudly say, “See what I did?” Play allows children to push the limits in a positive way, to extend what they’ve learned as far as they can. It gives children the freedom to fail and make mistakes, and the opportunity to explore the limits of their skills.

3. Play is a means of emotional expression. Children live in a world where they have little power and few legitimate opportunities to express emotions such as anger or dependency. Fantasy play can reduce feelings of fear, anger, and inadequacy, and provides experiences which enhance children’s feelings of enjoyment, control, and success.

4. Through play, children can communicate thoughts, needs, satisfactions, problems, and feelings. An adult can learn a lot about a child’s feelings of joy, hope, anger and fear by watching, listening to, and talking with a child at play.

5. Play is a place for children to try out roles such as mother, father, aunt, teacher, and doctor. Role playing gives children a chance to see the world from other points of view, and helps them become less egocentric.

6. When children play in a supportive environment, they can be creative. They are free to try out their imagination, explore the impossible and the absurd, and develop confidence in the value of their thoughts and ideas. During make-believe play, boxes, blocks, and articles of furniture can become houses, palaces, or entire kingdoms; doll figures can turn into mothers, children, and even monsters.

7. Play develops the basic skills for social interaction. Children learn how to cooperate, share, and be sensitive to the feelings of others during play.

For the child, play is not frivolous—it is an opportunity for growth and development in almost every area. But it takes practice for children to become competent, creative, and self-confident in their play. It is important for adults to actually participate in play activities with children, and to create a supportive environment so that children will engage in a variety of play experiences.
Properties of Play Toys

Toys are an important part of fostering good play in children. However, it is not necessary to buy expensive, commercially approved, or “educational” toys. Children are marvelously inventive and, if their imaginations are not squelched by an overly restrictive atmosphere, they can turn almost any object such as a saucepan and spoon into an interesting plaything or dirt and water into a mud pie.

Basically, good play material and equipment should be:

1. Safe, without sharp edges or lead-based paint.
2. Unstructured and as free of detail as possible. Toys such as blocks, play dough, and paints elicit more imaginary play from children.
3. Responsive and versatile. Toys should stimulate children to do things for themselves. Equipment that makes the child a spectator, such as a mechanical duck which waddles and quacks after being wound up, may entertain for a moment but has no play value. The more things a toy does, the less the child does. If a toy renders the child passive, it is undesirable.
4. Large and easily manipulated. Toys that are too small can be a great source of frustration for young children, because the child’s muscular coordination is not yet developed enough to handle the smaller forms and shapes.
5. Pleasurable to touch, durable and simple in construction. For example, maple hardwood is warm and pleasant to touch, as well as durable.
6. Something that encourages cooperative play. Household/kitchen equipment, such as a broom and a dustpan, pots and pans, old cereal boxes encourage imitation of social interaction.
7. Within the child’s level of skill, and should fit in with the child’s personality and present interests. However, also take into consideration your own likes and dislikes so that you will enjoy sharing the toys with your child (a loud toy drum may be great fun for a child, but annoying to adults).
Supplemental Home Activity

These three pages are not required activities, but they may be helpful as you think about your interactions with your toddler.

**CHECKLIST FOR EVALUATING ADULT/CHILD PLAY INTERACTIONS**

A. When you play with your child, how often do you encourage your child to:

<table>
<thead>
<tr>
<th></th>
<th>Almost</th>
<th>Always</th>
<th>Sometimes</th>
<th>Almost Never</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Explore?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>2. Make her own choices?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>3. Be creative and curious?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>4. Express feelings and ideas?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>5. Engage in pretend or make-believe play?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>6. Participate in both boys’ and girls’ play activities?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
</tbody>
</table>

B. When you play with your child, how often do you:

<table>
<thead>
<tr>
<th></th>
<th>Almost</th>
<th>Always</th>
<th>Sometimes</th>
<th>Almost Never</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Direct or structure the activity?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>2. Create the rules of the activity?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>3. Criticize and correct your child’s mistake?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>4. Force your child to finish the project?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>5. Allow participation only in sex-appropriate activities?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td>6. Feel uncomfortable with your child’s expression of fear or helplessness?</td>
<td>______</td>
<td>______</td>
<td>______</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>---</td>
<td>---</td>
<td>---</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7.</td>
<td>Compete with your child</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>8.</td>
<td>Become engrossed with your own play, and ignore your child’s play?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>9.</td>
<td>Ask a lot of questions?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>10.</td>
<td>Impose your own ideas?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>11.</td>
<td>Give too much help?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>12.</td>
<td>Ignore or fail to engage in pretend play?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>13.</td>
<td>Demand perfection?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>14.</td>
<td>Place emphasis on the ultimate product of play rather than effort?</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

C. What interferes with your ability to play with your child?
How often do you play with your child one-on-one?
Do you feel this play time is valuable?
### Checklist for Evaluating Your Toddler’s Play

When you observe your child’s play, how often does he or she:

<table>
<thead>
<tr>
<th></th>
<th>Almost Always</th>
<th>Sometimes</th>
<th>Almost Never</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Seem joyful?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Show curiosity?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Cooperate with other children?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. Try out new ideas?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Get frustrated easily?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Seem passive?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>7. Display independence rather than dependence?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>8. Have short attention span and act impulsively?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>9. Show self-confidence?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>10. Rarely interact or seem interested in other children?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>11. Initiate interactions with peers?</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>12. Initiate your actions and words?</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

After you have completed this checklist, think about what you have observed.
REFRIGERATOR NOTES
Social & Emotional Developmental Landmarks
12–18 months

- Gesture, point and babble (12 months)
- Wave bye-bye (10–12 months)
- Use two words skillfully (13 months)
- Enjoys looking at self in mirror (13–14 months)
- Holds out arm or leg to help with dressing (13–14 months)
- Combines gestures with words to make needs known (14 months)
- Imitates others (14 months)
- Initiates games (14–15 months)
- Responds to instructions (14–15 months)
- Uses spoon (14–15 months)
- Drinks from a cup with assistance (14 months)
- Uses three words (15 months)
- Adopts “no” as favorite word (15–16 months)
- Becomes attached to object such as a blanket (16 months)
- Switches from two naps to one (16–17 months)
- Uses some common consonants (t, d, n, w) (16 months)
- Uses six words regularly (17 months)
- Enjoys pretend games (17 months)
- Enjoys music and dances to music (17 months)
- Says please and thank you (18 months)
- Will look at pictures in a book, point to pictures and can turn pages on own (18 months)
- Responds to questions with pointing and sounds to indicate some conversation (18 months)
- Looks at object that parent points to rather than parent’s finger (18 months)
- Understands about 100–150 words but cannot say them (18 months)
- Is immensely curious to examine objects (12–18 months)
REFRIGERATOR NOTES
Physical Developmental Landmarks 12–18 months

- walk and cruise
- holds out arm or leg to help with dressing (13-14 months)
- toddles well (14-15 months)
- runs (15-16 months)
- increased hand movements–can turn pages of a book (16 months)
- enjoys climbing (16-17 months)
- stacks blocks (16-17 months)
- throws a ball (18 months)
- scribbles (18 months)
<table>

Promoting Toddlers’ Language Development

Home Activities for the Week

To Do:

- **PLAY** with your child being child-directed and using descriptive commenting, modeling & repetition
- **READ** with your toddler or color using interactive reading
- **RECORD** your child’s developmental landmarks (complete “Things I Can Do” checklist 19–24 months, pg. 121-124)
- **COMPLETE** checklists for reflecting on toddler play (pg. 114-115)

To Read:

Chapter 2, *Promoting Toddlers’ Preschool Readiness with Academic and Persistence Coaching*, in *Incredible Toddlers*
Promoting Toddler’s Language Development

Home Activities for the Week

To Do:

- **PLAY** with your child being child-directed and using persistence coaching (avoid question-asking)
- **READ** with your toddler or color using child-directed coaching
- **RECORD** in your academic & persistence coaching journal (pg. 120)
- **COMPLETE** checklist for reflecting on my parent-toddler play interactions (pg. 116-118) and bring to next meeting
- **CALL YOUR BUDDY** and share a play experience

To Read:

Chapter 2, *Promoting Toddlers’ Preschool Readiness with Academic and Persistence Coaching*, in *Incredible Toddlers*
Calling Your Buddy

From now until the final week of the Parenting Program you will be asked to call, text, or e-mail a person from your group. The purpose of these calls is to share ideas and “hot tips” about how the home activities are going.

If you are phoning, these calls need last no more than five minutes and can be scheduled at your own and your buddy’s convenience.

Parents sharing with each other can not only provide a rich bank of creative solutions but also be supportive on one another!
“Descriptive commenting” is a powerful way to strengthen children’s language skills. The following is a list of actions, behaviors and objects that can be commented upon when playing with your child. Use this checklist to practice descriptive commenting concepts.

<table>
<thead>
<tr>
<th><strong>Objects, Actions</strong></th>
<th><strong>Examples</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>____ colors</td>
<td>“You have the red car and the yellow truck.”</td>
</tr>
<tr>
<td>____ number counting</td>
<td>“There are one, two, three dinosaurs in a row.”</td>
</tr>
<tr>
<td>____ shapes</td>
<td>“Now the square Lego is stuck to the round Lego.”</td>
</tr>
<tr>
<td>____ names of objects</td>
<td>“That train is longer than the track.”</td>
</tr>
<tr>
<td>____ sizes (long, short, tall, smaller than, bigger than, etc.,)</td>
<td>“You are putting the tiny bolt in the right circle.”</td>
</tr>
<tr>
<td>____ positions (up, down, beside, next to, on top, behind, etc.,)</td>
<td>“The blue block is next to the yellow square, and the purple triangle is on top of the long red rectangle.”</td>
</tr>
</tbody>
</table>

**Persistence**

| ____ working hard | “You are working so hard on that puzzle and thinking about where that piece will go.” |
| ____ concentrating, focusing | “You are so patient and just keep trying all different ways to make that piece fit together.” |
| ____ stay calm, patience | “You are staying calm and trying again.” |
| ____ trying again | “You are thinking hard about how to solve the problem and coming up with a great solution to make a ship.” |
| ____ problem solving |  |
| ____ thinking skills |  |
| ____ reading |  |

**Behaviors**

| ____ following parent’s directions | “You followed directions exactly like I asked you. You really listened.” |
| ____ listening | “You have figured that out all by yourself.” |
| ____ independence |  |
| ____ exploring |  |
**Brainstorm**

*Personal Thoughts About Play*

Before continuing, think about these two questions:

1. What are the potential benefits for your toddler when you play with him/her?
2. What gets in the way of playing with your toddler?

Write down the benefits of playing with your child and your difficulties in doing it. See if you can find any solutions to your barriers to playing with your child.

<table>
<thead>
<tr>
<th>Benefits of My Playing and Spending Time With My Child</th>
<th>Difficulties in Doing This</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Goal:**

I will commit to playing with my child _____ times this week for _____ minutes.
REFRIGERATOR NOTES

Promoting Toddlers’ Language and Pre-School Readiness Skills

• Prompt your toddler to communicate by modeling the words for him to repeat
• Praise your toddler’s use of words
• Chant and sing rhymes and teach your child body movements that go with the words
• Use many more descriptive comments than questions
• Describe your toddler’s actions
• Praise and give positive feedback to your toddler (that’s right!)
• Describe your toddler’s body parts and feelings
• Listen to your toddler and imitate, or mirror, your toddler’s words
• Notice what your toddler is interested in and talk about it
• Describe the objects, shapes, numbers, letters and colors of toys your toddler plays with
• Describe what your own actions to your toddler (e.g., “I’m going to the kitchen now)
• Tell your toddler you love him or her and share feelings of joy
• Notice when your toddler is working hard, concentrating, being calm, staying patient with a frustrating activity, trying again and name or describe this persistence
• Read to your toddler often
• Give your child opportunities to color and describe his actions
• Talk about positions of objects (e.g., inside, under, beside, next to)
• Talk about simple every day stories and events
• Use puppets to make up stories with your toddler
• Use make believe such as pretend phones to encourage talking
• Try to really understand what your toddler is saying
• Use new words to expand her vocabulary even if you know she won’t understand at first

I use new words with my child
REFRIGERATOR NOTES

Reading with Your Toddler

• Read at a quiet time when you are relaxed and comfortable—with TV and music turned off (this prevents over stimulation)
• Hold your toddler in comfortable position on your lap when reading
• Read for a few minutes each day when your toddler seems calm and alert. (Reading at bedtime is a great routine to have established because it helps your toddler calm down.)
• If you have other children, read to them as well
• Use “parent-ese” language when reading, because this is preferred by toddlers over regular communication. Parent-ese sounds like this:
  - singsong, higher pitched, slower voice
  - clear articulation (not baby talk)
  - pause longer after speaking to wait for response
  - words repeated often
  - reader uses an exaggerated facial expression (big smiles) when responding
  - expressive voice using sound effects (for animals, cars, actions)
• Point to pictures in the book and talk about them or make up stories
• Re-read books your toddler likes many times
• Chant and sing rhymes
• Use hand movements with words
• Praise and give positive feedback (that’s right!)
• Slide your finger under the words or letters on the page and show left to right movement
• Encourage your toddler to turn the pages
• Read the names of the author and illustrator to your toddler as you begin reading
• Go to the library together for story time or just to browse. Let your child pick several books to take home

I repeat words often
REFRIGERATOR NOTES

Reading with Your Toddler

• For 12-18-month-old toddlers—read books that encourage your toddler to chime in and repeat words; books that label objects and parts of the body; books that illustrate action words such as walking or running; and books with flaps or noises.

• For 18-24 month old toddlers—read books about your toddler’s interests (boats, trucks); books that include hand movements; books with numbers, colors, shapes; books with stories that show feelings.

• Read books that reflect your toddler’s experience such as having a bath, putting on boots for the rain; books that use phrases such as good-bye, thank you; books that ask questions; books with rhymes and songs with hand movements;

• Keep reading each day.

Remember, toddlers have a wide range in attention span, that will vary daily. Don’t worry if your toddler seems restless and gets off your lap. Keep reading and ask him questions about the story to see if he is still interested. If he responds keep reading, if he seems more interested in another activity, wait and try to read again later.

Most toddlers will want to have the same book read over and over again—this is important to them because it provides security and allows them to memorize the book so they get a feeling of mastery over the book. Then they may even read the book back to you! It is an important pre-reading skill.
**Home Activities**

**RECORD SHEET: PLAY TIMES**

<table>
<thead>
<tr>
<th>Date</th>
<th>Time Spent</th>
<th>Activity</th>
<th>Child’s Response</th>
<th>Parent’s Reaction</th>
</tr>
</thead>
</table>
REFRIGERATOR NOTES

Social & Emotional Developmental Landmarks
19–24 months

- Enjoys helping around the house (19 months)
- Understand most of what you say–about 200 words (19–20 months)
- Still loves rhymes and songs repeated (all months)
- Recognizes when something is wrong (19–20 months)
- Captivated by visual illustrations in books (20 months)
- Points to picture when you name it (20 months)
- Can say 50-100 or more words–learns at a rate of 10 or more per day! (20–24 months)
- Imitates expressions (even swear words!)
- Imitates what you do (clean table, wash dishes) (20 months)
- Does pretend play such as feed baby doll (20 months)
- Can identify and name several body parts (20 months)
- Learns how to form a question–“why” (21–22 months)
- Starts using action words (e.g., more, eat)
- Name simple picture in book (22 months)
- Sings simple tunes (23–24 months)
- Begins to be interested in playing with other children (24 months)
- Half of speech can be understood (24 months)
- Can make 2–3 word phrases (“me go”) (24 months)
REFRIGERATOR NOTES
Physical Developmental Landmarks 19–24 months

- Uses fork and spoon (19 months)
- Can take off clothes (20 months)
- Can walk up but not down stairs (20–21 months)
- Stacks 6 blocks (21–22 months)
- Does simple puzzles (22–23 months)
- Puts on loose clothing (23–24 months)

Solves simple puzzles
## THINGS I CAN DO! • 19–24 months

</table>
Comment, use descriptive commenting to describe pictures.
Take turns interacting, and let your child be the storyteller by encouraging him/her to talk about the pictures.

Ask open-ended questions.
“What do you see on this page?” (observing and reporting)
“What’s happening here?” (storytelling)
“What is that a picture of?” (promoting academic skills)
“How is she feeling now?” (exploring feelings)
“What is going to happen next?” (predicting)

Respond with praise and encouragement to your child’s thinking and responses.
“That’s right!”
“You are really thinking about that.”
“Wow, you know a lot about that.”

Expand on what your child says.
“Yes, I think he’s feeling excited, too, and he might be a little scared as well.”
“Yes, it is a horse; it’s also called a mare.”
“Yes, that boy is going to the park. Do you remember going to the park?”

I read with CARE to my child
**Your Child's Temperament**

Temperament is a behavioral style that refers to the natural way a person reacts or behaves in response to their environment. In the late 1950s, researchers Thomas, Chess, Birch, Hertizig and Korn identified nine traits or characteristics that are present at birth and are felt to influence development in important ways throughout life. While environment can modify these physical traits to some extent, the basic traits of a person are felt to be inborn and stable and do not result from the way a child is parented.

Here are nine traits proposed by Thomas et al. that describe a baby or child’s reactivity to his or her environment. Think about where your child is on each of these traits. Each trait is a continuum so your child may be very much like one of the traits, but he or she may also be in the middle:

**My Child's Temperament**

**My child’s activity level:**
This is the amount s/he moves or wiggles or is on the go versus how much s/he relaxes or sits still or prefers quiet activities.

<table>
<thead>
<tr>

</table>

**Easy and Flexible Temperament Child**
If your child is mostly regular, adaptable, positive, calm and has a moderate activity level you have an easy temperament child; about 40% of children fall into this category.

**Slow to Warm Up and Cautious Child**
If your child is slow to adapt, initially withdraws and has moderate activity and intensity, your child will have a slow to warm up temperament; about 15% of children fall into this category.

**Challenging Temperament Child**
If your child has a high activity level, is unpredictable, poor adaptability, and is intense and negative you have a more challenging temperament child; about 10% of children fall into this category.

About 35% of children are a combination of these patterns.
Parenting Approaches: A Temperament Focus

Since parents can’t change their child’s temperamental style, parenting approaches must be accepting and responsive to the unique temperament or cues of each child. It is important for parents to try to get a reasonable “fit” between their child’s temperament and their parenting style. This can be done by parents observing and learning about their children’s behavioral style and then altering or adapting their parenting expectations, encouragement and discipline to suit their child’s unique needs.

Remember, it is important not to label your child as easy, shy or difficult. These labels can damage your child’s self-esteem and perhaps set up a self-fulfilling prophecy that prevents your child from expanding his or her behavioral repertoire. On the other hand, knowing what kind of temperament your child has may make the difference between a happy or a troubled child and between an accepting or a frustrated parent. Understanding your child’s temperament can improve your relationship with your child because you will learn how to bring out the best in your child. It is within your power as a parent to help your child cope with his temperament, to build his self-esteem and eventually come to understand himself better.

For example, parenting the easy or flexible temperament child will demand less parental time or attention because the child will adapt easily to changes in routines, and may not express his or her individual wants. Because of this easy style, parents will need to make special efforts to find out about their child’s frustrations and hurts and interests and assess what he or she is thinking and feeling. Otherwise, such a child may become invisible in the family, insecure and not be helped to develop her uniqueness.

On the other hand, the inflexible, hyperactive, inattentive, unpredictable, or easily frustrated child may seem to have an insatiable need for attention. Children with these challenging temperaments often leave their parents exhausted because of the amount of monitoring and attention that they require. These children will need predictable household routines, help in preparing for transitions, and outlets for their high level of energy. Parents can work to recognize cues and triggers for their child’s intense emotions and be proactive by using humor to diffuse intensity, prompting a self-calming activity, or changing to a soothing activity such as a story or warm bath. Parents of intense children will strive to be tolerant, patient, and model appropriate responses. If the child is negative, they will need try to encourage positive responses. If the child is very distractible, parents should try to keep instructions clear and tasks simple. It is important to remove competing distractions when possible, provide frequent breaks, and redirect the child without shame or anger. These children will need frequent praise and encouragement for completing small steps of a task. Likewise, parents of such energetic children will need to get support for themselves so they can rest and refuel their energy.

On the other hand, the cautious, slow to warm up child, will be relatively inactive and may withdraw or react negatively to new situations. These children will also need clear routines as well as encouragement to try new activities and ample warm up time to meet new people or enter new situations such as day care or preschool. These children will need discussions to prepare them for change in routines and warnings a few minutes before transitions to new activities. They will need time to close one activity before going to the next. It is also helpful to keep the number of transitions to a minimum. They may need additional time to finish tasks. Avoid criticism for their slow pace or resistance.
**Parent’s Temperament Fit with their Child’s Temperament**

Parents also have their own temperament and need to understand how their own temperament style meshes with their child’s temperament. Sometimes parent-child temperaments are very similar; other times they are very different. Both similar and different parent-child temperaments may result in clashes.

Do the questionnaire you did earlier for your child now for yourself. See what you find out about your temperament fit with your child.

**My Temperament**

**My activity level:**
This is the amount I move versus how much I relax. I am:

<table>
<thead>
<tr>
<th>Very Active</th>
<th>Quiet and Relaxed</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>5</td>
<td></td>
</tr>
</tbody>
</table>

**The regularity of my bodily functions:**
This is the predictability of my sleep times, eating, and bowel movements. I am:

<table>
<thead>
<tr>
<th>Mostly Regular/Predictable</th>
<th>Mostly Irregular/Unpredictable</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>5</td>
<td></td>
</tr>
</tbody>
</table>

**My adaptability:**
This is how I adapt to changes in routine, new food, new people, or new places. I usually:

<table>
<thead>
<tr>
<th>Adapts Quickly</th>
<th>Slow to Adapt</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>5</td>
<td></td>
</tr>
</tbody>
</table>

**My approach:**
This is how eager I am to try something new versus how fearful or shy I am. Usually I am:

<table>
<thead>
<tr>
<th>Eager Initial Approach</th>
<th>Initial Withdrawal or Reluctance</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>5</td>
<td></td>
</tr>
</tbody>
</table>

**My physical sensitivity:**
This is my sensitivity to noise, textures, bright lights, temperature is:

<table>
<thead>
<tr>
<th>Not Sensitive</th>
<th>Very sensitive</th>

This is degree to which I can persist or sustain my attention versus how easily I give up. Usually I have a:

<table>
<thead>
<tr>
<th>Long Attention Span</th>
<th>Short Attention Span</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>5</td>
<td></td>
</tr>
</tbody>
</table>
Refrigerator Notes

Goodness of Fit—Managing Your Child’s Temperament

Even if parents have different temperaments than their children, they can still strive for a good fit with their child. A good fit is when parent’s demands and expectations are compatible with their child’s temperament, abilities and characteristics. The goal is always to manage rather than to squelch or change temperament.

Here are some tips for achieving a good fit and managing your child’s temperament.

• Realize that your child’s temperament style is not your “fault” because temperament is something biological and innate, not something that is learned from parents. Your child is probably not purposely trying to be difficult or irritating. Don’t blame him or yourself.
• Respect your child’s temperament without comparing to other siblings or trying to change his or her basic temperament.
• Consider your own basic temperament and behavior and tailor your parenting responses when they clash with your child’s responses to encourage a better fit.
• Remember what you model for your children is what they learn from you.
• Try to consider and anticipate your child’s adaptability, activity level, sensitivity, biological rhythms and ability to sustain attention when planning activities that are most suitable for your child.
• Try to focus on the issues of the moment. Do not project into the future.
• Review your expectations for your child, your preferences and your values. Are they realistic and appropriate?
• Anticipate high risk situations and try to avoid or minimize them.
• Enjoy the interactions and the differences in each of your children.
• Avoid labeling your child as bad or difficult as this may lead to negative self-image and further compound his difficulties.
• Try to distinguish between a tantrum that is temperamentally induced (reaction to disappointment) versus one that is manipulative (designed to get parent to give in).
• Help your child develop a positive self-esteem – that is, to have a fair sense of his strengths and weaknesses.
• Find a way to get relief for yourself and your child by scheduling some time apart.

Remember above all temperament qualities can be shaped to work to a child’s advantage if they are sensibly managed.
NOTE: The handouts in this section may be kept as master copies and photocopied for reuse with your parent groups. All copyright information must be maintained and you may not alter any of the content on these materials.

These handouts are also available on our website, www.incredibleyears.com (in Group Leader Resources section).
CONTINUE playing with your toddler one-on-one using social, emotion and persistence coaching

RECORD your child’s developmental landmarks (“Things I Can Do” checklist pg. 170-173)

CALL YOUR BUDDY to share coaching experiences

To Read:
Chapter 3, Coaching Toddlers’ Social and Emotional Competence, in Incredible Toddlers
Home Activities for the Week

Gore:

• PLAY with your toddler and another child using social, emotion and persistence coaching during play
• ENGAGE in some pretend or imaginary play with your child
• TRY using coaching in other settings such as the grocery store, or at a playground, or at mealtimes or bath time
• RECORD on your social and emotional coaching journal (pg. 169)
• CALL your buddy to share imaginary play experiences

To Read:
Chapter 3, Coaching Toddlers’ Social and Emotional Competence, in Incredible Toddlers
**Brainstorm**

*Personal Thoughts About Play*

Before continuing, think about these two questions:

1. What are the potential benefits for your toddler when you play with him/her?
2. What gets in the way of playing with your toddler?

Write down the benefits of playing with your child and your difficulties in doing it. See if you can find any solutions to your barriers to playing with your child.

<table>
<thead>
<tr>
<th>Benefits of My Playing and Spending Time With My Child</th>
<th>Difficulties in Doing This</th>
</tr>
</thead>
<tbody>
<tr>

<td></td>
</tr>
</tbody>
</table>

**Goal:**

I will commit to playing with my child _____ times this week for _____ minutes.
**Refrigerator Notes**

**Facilitating Children’s Emotion Learning:**

*Parents as “Emotion Coaches”*

Describing children’s feelings is a powerful way to strengthen your child’s emotional literacy. Once children have emotion language, they will be able to better regulate their own emotions because they can tell you how they feel. The following is a list of emotions that can be commented upon when playing with a child. Use this checklist to practice describing your child’s emotions.

<table>
<thead>
<tr>
<th>Feelings/Emotional Literacy</th>
<th>Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td>_____ happy</td>
<td>“That is frustrating, and you are staying calm and trying to do that again.”</td>
</tr>
<tr>
<td>_____ frustrated</td>
<td>“You look proud of that drawing.”</td>
</tr>
<tr>
<td>_____ calm</td>
<td>“You seem confident when reading that story.”</td>
</tr>
<tr>
<td>_____ proud</td>
<td>“You are so patient. Even though it fell down twice, you just keep trying to see how you can make it taller. You must feel pleased with yourself for being so patient.”</td>
</tr>
<tr>
<td>_____ excited</td>
<td>“You look like you are having fun playing with your friend, and he looks like he enjoys doing this with you.”</td>
</tr>
<tr>
<td>_____ pleased</td>
<td>“You are so curious. You are trying out every way you think that can go together.”</td>
</tr>
<tr>
<td>_____ sad</td>
<td>“You are forgiving of your friend because you know it was a mistake.”</td>
</tr>
<tr>
<td>_____ helpful</td>
<td>___ worried</td>
</tr>
<tr>
<td>_____ confident</td>
<td>___ patient</td>
</tr>
<tr>
<td>_____ having fun</td>
<td>___ jealous</td>
</tr>
<tr>

<td>___ mad</td>
</tr>
<tr>
<td>_____ interested</td>
<td>___ interested</td>
</tr>
<tr>
<td>_____ embarrassed</td>
<td>___ embarrassed</td>
</tr>
</tbody>
</table>

**Modeling Feeling Talk and Sharing Feelings**

“I am proud of you for solving that problem.”

“I am really having fun playing with you.”

“I was nervous it would fall down, but you were careful and patient, and your plan worked.”
Facilitating Children’s Social Learning: Parents as “Social Skills Coaches”

Describing and prompting children’s friendly behaviors is a powerful way to strengthen children’s social skills. Social skills are the first steps to making lasting friendships. The following is a list of social skills that you can comment on when playing with a child or when a child is playing with a friend. Use this checklist to practice your social skills coaching.

### Social/Friendship Skills

<table>
<thead>
<tr>
<th>Social/Friendship Skills</th>
<th>Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td>helping</td>
<td>“That’s so friendly. You are sharing your blocks with your friend and waiting your turn.”</td>
</tr>
<tr>
<td>sharing</td>
<td>“You are both working together and helping each other like a team.”</td>
</tr>
<tr>
<td>teamwork</td>
<td></td>
</tr>
<tr>
<td>using a friendly voice (quiet, polite)</td>
<td></td>
</tr>
<tr>
<td>listening to what a friend says</td>
<td>“You listened to your friend’s request and followed his suggestion. That is very friendly.”</td>
</tr>
<tr>
<td>taking turns</td>
<td>“You waited and asked first if you could use that. Your friend listened to you and shared.”</td>
</tr>
<tr>
<td>asking</td>
<td>“You are taking turns. That’s what good friends do for each other.”</td>
</tr>
<tr>
<td>trading</td>
<td></td>
</tr>
<tr>
<td>waiting</td>
<td></td>
</tr>
<tr>
<td>agreeing with a friend’s suggestion</td>
<td>“You made a friendly suggestion and your friend is doing what you suggested. That is so friendly.”</td>
</tr>
<tr>
<td>making a suggestion</td>
<td>“You are helping your friend build his tower.”</td>
</tr>
<tr>
<td>giving a compliment</td>
<td>“You are being cooperative by sharing.”</td>
</tr>
<tr>
<td>using soft, gentle touch</td>
<td>“You both solved the problem of how to put those blocks together. That was a great solution.”</td>
</tr>
<tr>
<td>asking permission to use something a friend has</td>
<td></td>
</tr>
<tr>
<td>problem solving</td>
<td></td>
</tr>
<tr>
<td>cooperating</td>
<td></td>
</tr>
<tr>
<td>being generous</td>
<td></td>
</tr>
<tr>
<td>including others</td>
<td></td>
</tr>
<tr>
<td>apologizing</td>
<td></td>
</tr>
</tbody>
</table>

### Prompting

- “Look at what your friend has made. Do you think you can give him a compliment?” (praise child if s/he tries to give a compliment)
- “You did that by accident. Do you think you can say you are sorry to your friend?”

### Modeling Friendly Behavior

- Parents can model waiting, taking turns, helping, and complimenting, which also teach children these social skills.
REFRIGERATOR NOTES

Promoting Your Toddler’s Self-regulation Skills

• Try to understand what your toddler is feeling and wanting
• Describe your toddler’s feelings (don’t ask him what he is feeling because he is unlikely to have the words to tell you)
• Label your toddler’s positive feelings more often than his negative feelings
• Praise your child’s self-regulation skills such as staying calm, trying again when frustrated, waiting a turn, and using their words
• Support your toddler when he is frustrated
• Model and give your toddler the words to use to express his needs (e.g., “you can ask her for the truck”)
• Help your toddler learn ways to self-soothe such as using a pacifier or blanket
• Praise and encourage your toddler when he stays calm in a frustrating situation
• Cuddle and soothe your toddler when she is hurt or frightened. Stay calm yourself to provide extra reassurance.
REFRIGERATOR NOTES
Promoting Your Toddler’s Social Competence

• During play model social skills for your toddler such as offering to share, wait, give a compliment and take turns, ask for help and agree to wait.

• Prompt your toddler to ask for help, or take a turn, or share something, or give a compliment and then praise if it occurs. Don’t make an issue out of it if your toddler does not respond to your prompt.

• Praise your toddler any time s/he offers to share with you or help you.

• Participate in pretend play by taking your doll or action figure and using them to model skills such as asking to play, offering to help, taking a turn, giving a compliment, calming down with a deep breath and waiting.

• Model and prompt your child with a suggestion of the appropriate words to use.

• Help your child occasionally notice what another child is doing and to help them in some way.

• Help your toddler understand that when s/he shared, the other person felt happy.
REFRIGERATOR NOTES

Picky Eating

Eating solids is a new learning experience for your toddler. Your child will need time to explore the tastes, textures and smell of each new food. Remember repeated learning trials will be needed before your toddler will come to like a new food.

- Try to make mealtimes a relaxed and fun time for your toddler
- Minimize distractions during mealtimes by turning off TV or taking the phone off the hook
- Provide your toddler with a choice of foods to allow for independent decision making
- Introduce one new food at a time in a small amount; for example, offer the new food along with your toddler’s favorites
- Try to offer a meal with at least one food choice you know your toddler likes
- Offer toddler-size portions—which are much smaller than adult portions
- Resist the urge to offer sugary foods, or your toddler will learn to prefer these foods over others
- Don’t expect your toddler to like a whole lot of foods–let your toddler make his own decisions on the food he chooses to eat. Forcing your child to eat will only make your toddler more stubborn and less open to new foods in the future.
- You don’t need to become a short-order cook. If you provide some choices of foods your toddler often likes, you don’t need to cook an entire new dinner to meet his demands.
Home Activities

RECORD SHEET: PLAY TIMES

Record times you spent playing with your child, what you did, and any reaction you noticed in yourself or your child.

Part 3: Social and Emotion Coaching ©The Incredible Years®*
REFRIGERATOR NOTES

CHILD-DIRECTED PEER PLAY

• Encourage play dates with friends.
• Describe children’s play activities (e.g., colors, shapes, numbers, position of objects).
• Praise and encourage children’s ideas and creativity; avoid criticism.
• Engage in role play and make-believe with children (e.g., puppets, pretend phone calls).
• Prompt children to notice each other’s activities.
• Use descriptive comments instead of asking questions.
• Try to give enough help; so children are successful but not so much help that you take over.
• Prompt, coach, and praise children’s friendly behaviors (e.g., sharing, helping, taking turns, being polite).
• Provide positive support for children’s emotional regulation skills (e.g., being patient or calm, waiting, using words).
• Encourage and describe children’s expressions of emotion (e.g., being excited, frustrated, curious, calm).
• Laugh and have fun.

Remember to be realistic about what is developmentally appropriate to expect for toddlers!

I help my toddler see the connections between behavior and another’s feelings.
REFRIGERATOR NOTES
Social & Emotional Developmental Landmarks 25–30 months

• Talks about self (“me”) (25 months)
• Uses pronouns (e.g., I, me, you) (26 months)
• Uses 3-word sentences (25 months)
• Speaks clearly (27 months)
• Can answer some questions (26 months)
• Vocabulary increases to 300 words (30 months)
• Understands descriptions (28 months)
• Starts to recognize ABCs
• Brushes teeth with help (29-30 months)
• Aware of need to pee or poop (25-30 months)
• Names a color (30 months)

REFRIGERATOR NOTES
Physical Developmental Landmarks 25–30 months

• Can walk downstairs (25 months)
• Learns to jump (25 months)
• Washes and dries own hands (26 months)
• Draws a circle (30 months)
• Puts on shirt (30-32 months)

### Social/Friendship Skills Examples

#### Parent Models:
- **Sharing**
  - “I’m going to be your friend and share my car with you.”
- **Offering to Help**
  - “If you want, I can help you with that by holding the bottom while you put another on top.”
- **Waiting**
  - “I can use my waiting muscles and wait until you’re finished using that.”
- **Suggesting**
  - “Could we build something together?”
- **Complimenting**
  - “You are so smart in figuring out how to put that together.”
- **Behavior-to-Feelings**
  - “You shared with me. That is so friendly and makes me feel happy.”
  - “You helped me figure out how to do that. I feel proud that you could show me that.”

#### Parent Prompts:
- **Self-Talk**
  - “Hmm, I really wish I could find another piece to fit here.”
  - “Hmm, I’m not sure I know how to put this together.”
- **Asking for help**
  - “Can you help me find another round piece?”
  - “Can you share one of your cars with me?”

#### Parent Response:
- **Praise child when s/he shares or helps you**
  - “That was so helpful and friendly to share with me.”
- **Ignore or model acceptance when child does NOT share or help**
  - Continue to use descriptive commenting.
  - “I can keep trying to find that round piece.” (model persistence)
  - “I can wait until you’re finished playing with the cars.” (model waiting)
  - “I know it is hard to give up that car, so I will wait to have a turn later.”

#### Puppet or Action-Figure Models:
- **Entering Play**
  - “Can I play with you?”
  - “That looks like fun. Can I do that with you?”
- **Being Socially Friendly**
  - “I’m being friendly. I’d like to play with you.”
- **Ignoring Aggression**
  - “I want to play with a friendly person. I think I will find somebody else to play with.”
### Parents Promoting Emotional and Social Competence in Young Children

#### Parent-Child Social Coaching: Child Developmental Level 2

**Children in Parallel Play:** Young children start out playing with other children by sitting next to them and engaging in parallel play. In the beginning, they do not initiate interactions with other children or seem to notice they are even there. They may not talk to them or offer an idea or interact with them in any way. Parents can help promote peer play by prompting their children to use social skills or to notice their friends’ activities or moods. Providing children with the actual words for interactions, or modeling social behaviors will be important since children may not yet have these skills in their repertoire.

<table>
<thead>
<tr>
<th>Social/Friendship Skills</th>
<th>Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Parent Coaches:</strong></td>
<td></td>
</tr>
<tr>
<td>❖ Asking for What They Want</td>
<td>“You can ask your friend for what you want by saying, ‘Please can I have the crayon?’”</td>

Effective Ways to Praise and Encourage Your Toddler

“Bringing out the Best in Your Child”

Home Activities for the Week

To Do:

• CONTINUE PLAYING (and reading) with your child every day for at least 10 minutes.
• PRACTICE using praise during play time.
• CHOOSE one behavior you would like to see your child engage in more frequently, and systematically PRAISE it every time it occurs during the following week; for example: playing quietly, going to bed when requested, picking up toys, and sharing with others. (See pg. 224)
• INCREASE THE NUMBER OF PRAISES you give and observe what effect this has on your child.
• RECORD of the results in your journal.
• LIST the behaviors you want to see more of on the Behavior Record handout.
• PRACTICE praising yourself for your parenting efforts (see pg. 225)
• CALL YOUR BUDDY to share your praise efforts

To Read:

Chapter 4, Positive Attention, Encouragement and Praise, in Incredible Toddlers.
Brainstorm
Brainstorm possible self-praise you can use to encourage yourself as a parent. Write these statements on your notepad.

**Positive Self-Praise**

I can do it...
I am working hard as a parent...
I can stay calm...

**Goal:**

I will commit to thinking about what I am doing well as a parent each day and using two of the above examples.
**Brainstorm**

Brainstorm words you use to praise your child to increase behavior you want to see more of. Write them below.

<table>
<thead>
<tr>
<th>Behaviors I want to see more of:</th>
<th>Praise words to use</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>I like it when you...</td>
</tr>
<tr>
<td></td>
<td>Good for you!</td>
</tr>
<tr>
<td></td>
<td>Wow! What a wonderful job you’ve done!</td>
</tr>
</tbody>
</table>

**Goal:**

I will commit to increasing the number of praises I give my child to ____________ per hour. The behaviors I will praise include: (e.g., sharing) _____________________ __________________________________________________________________________
Examples of Ways to Give Praise and Encouragement

“You do a good job of . . .”
“You have improved in . . .”
“I like it when you . . .”
“Good for you for . . .”
“Good idea for . . .”
“You’ve done a good job of . . .”
“See how _______________ has improved in . . .”
“You’re doing very well.”
“Look how well he/she did . . .”
“That’s a perfect way of . . .”
“Wow, what a wonderful job you’ve done of . . .”
“That’s correct, that’s the perfect way to . . .”
“I’m so happy you . . .”
“It really pleases me when you . . .”
“You’re such a big girl for . . .”
“Good boy for . . .”
“Thank you for . . .”
“What a nice job of . . .”
“Hey, you are really sharp; you . . .”
“That’s great, it really looks like . . .”
“You’re doing just what Mommy wants you to do.”
“My, you are minding Daddy so well.”
“My! That . . . was so nice.”
“That’s very nice (or good) for . . .”
“Mommy’s very proud of you for . . .”
“Beautiful! Fine! Great! Gorgeous! Tremendous!”
“How thoughtful of you to . . .”

Some Physical Rewards
A pat on the arm or shoulder
A hug
Head rubbing
Squeezing the arm or waist
Giving a kiss
Examples of Behaviors to Praise and Encourage

- Sharing
- Talking with a friendly voice
- Complying with requests
- Good eating behavior at dinner
- Going to bed after the first request
- Playing quietly
- Solving a problem
- Putting things in garbage
- Doing a chore (e.g. cleaning up toys)
- Sponging the table
- Getting up promptly in the morning
- Making it through the night without wetting the bed
- Help make the bed
- Picking up clothes
- Putting toys away
- Walking slowly
- Reading or looking at a book
- Getting dressed
- Being friendly
- Being patient or staying calm
- Being kind to another child or adult
## RECORD SHEET: PRAISE

<table>
<thead>
<tr>
<th>Date</th>
<th>Time</th>
<th>Number of Praises and Examples of Praise Statements</th>
<th>Types of Child Behaviors Praised</th>
<th>Child’s Response</th>

**Home Activities**

Remember to build up your bank account.
Remember to Build Up Your Bank Account With Your Child
Remember to Build Up Your Bank Account With Other Family Members

- "Tell me more."
- "I appreciate you ..."
- "I feel good about you ..."
- "Thanks for ..."
- "You are a great partner."
- "A hug, kiss, pat"
- "Write in your own."
- "I enjoy doing ..."
- "What have you thought of doing?"
• Catch your child being good—don’t save praise for perfect behavior.
• Don’t worry about spoiling your children with praise.
• Increase praise for difficult children.
• Model self-praise.
• Give labeled and specific praise for behavior you want to see more of
• Make praise contingent on behavior.
• Praise with smiles, eye contact, and enthusiasm.
• Give positive praise.
• Praise immediately.
• Give pats and hugs and kisses along with praise.
• Use praise consistently.
• Praise in front of other people.

Remember to Build Up Your Child’s Bank Account
Write in your own personal praise statements.

Spontaneous Incentives for Toddlers

Home Activities For The Week

**To Do:**

- **CONTINUE PLAYING** with your child every day for at least 10 minutes, and **INCREASE THE NUMBER OF PRAISES** given to your child.
- **TRY** giving a spontaneous sticker or hand stamp for a social behavior you want to encourage.
- **PRAISE** another family member or child care provider for something you appreciate.
- **RECORD** your positive opposite behaviors in your journal (pg. 226-227)
- **GIVE** yourself a special treat for your parenting work (see pg. 228).

**To Read:**

Chapter 5, *Separations, Reunions, Bedtime and Routines*, in *Incredible Toddlers*
Brainstorm

Brainstorm possible positive self-statements you can use to encourage yourself as a parent. Write these statements on your notepad.

Encouraging Positive Self-Statements

I can do it...
I am working hard as a parent...

Goal:

I will commit to thinking about something positive I have done each day as a parent. (e.g., layed with my child, talked to my child’s teacher, made a fun meal, praised my child)
REFRIGERATOR NOTES
ABOUT TANGIBLE REWARDS

• Define positive child behavior you want to see more of.
• Make the steps small–be realistic.
• Choose no- or low-cost rewards.
• Get the appropriate behavior first, then reward.
• Give the reward immediately after the behavior.
• Reward everyday achievements.
• Gradually replace rewards with social approval.
• Predict success for your child.
• Don’t mix rewards with punishment.

NOTE: For young children (2–3 years) surprise or spontaneous rewards such as a hand stamp or special sticker is all that is needed. More complex sticker charts can wait until 5–6 years of age.
**Brainstorm**

**Reward yourself!**

Think about rewarding yourself. Have you ever used an incentive system to reward yourself for accomplishing difficult tasks or goals, like completing a difficult project, or working hard as a parent? Think about ways you could reward yourself for your hard work as a parent.

---

**Good Incentives for Me**

- A walk in the park
- Tea/coffee with a friend
- Warm bubble bath
- Buy myself a good book

---

**Goal:**

I will commit to doing something positive for myself this week. This will include:

__________________________________________________________________________
__________________________________________________________________________
Examples of behaviors to reward with stars and stickers:

- Getting dressed before the timer goes off
- Eating food on the plate before the timer goes off
- Making it through the night without wetting the bed
- Staying calm when frustrated
- Putting dirty clothes in hamper
- Using polite & friendly words
- Going to bed when asked
- Complying with a parents’ request
- Sharing with sibling
- Looking at a book quietly
- Using the toilet
- Turning off the TV
- Brushing teeth
- Staying by the side of the grocery cart
- Sleeping in own bed all night
- Being gentle with animals
Examples of Teacher Behaviors to Praise:

- Being kind to my child
- Being kind to me, especially when I’ve had a bad day
- Helping me get my child into or out of the classroom when I’m running late
- Sending a note home saying that my child had a good day
- Helping my child learn new things
- Helping my child get along with other children
- Giving me suggestions about how to help my child learn
- Making the classroom a friendly place to come to
- Proudly putting my child’s pictures up on the wall
- Helping my child feel good about himself or herself
- Teaching my child social skills
- Setting up an incentive program for my child
- Calling me at home to tell me about my child’s progress
- Inviting me to participate in the class
- Keeping me informed about the curriculum
Practice Praising Yourself And Others!

- Send a note to your child’s teacher telling what you like about your child’s classroom and learning experiences.
- Praise another parent or family member
- Give yourself a compliment
Caring Days

Strengthening Support Between Partners

Marital conflict can make it very difficult for parents to be effective in managing their children’s behavior. The following exercise is designed to strengthen your relationship.

Identify 10 to 20 “caring” behaviors that your spouse could do that you would enjoy. Ask your spouse to do this also. List these behaviors on a piece of paper and post them. Each day you and your spouse should try to select one or two items from the list and do them for one another. These caring behaviors should be (a) positive, (b) specific, (c) small, and (d) something that is not the subject of a recent conflict.

Examples: Ask how I spent the day and listen.
- Offer to get the cream or sugar for me.
- Listen to “mood music” when we set the clock radio to go to sleep.
- Hold my hand when we go for walks.
- Massage my back.
- Arrange for a babysitter and go out.
- Let me work late one night without a hassle.
- Have a quiet dinner without the children.
- Offer to watch the children while I make dinner, read the newspaper, etc.
- Allow me to sleep in one morning on the weekend.

By doing this exercise, you will obtain a record of each other’s efforts and become more observant of how the other person tries to please. We have noticed that parents are often quite willing to please their partner if they understand precisely what their partner wants and know that their efforts will be recognized.

Support for Single Parents

If you do not have a partner, it is important to arrange some “caring days” for yourself. You could do this by developing a list of pleasurable things you would like to do for yourself. Each week pick some of the items from your list to give yourself.

Examples: Have dinner with a friend.
- Go to a movie.
- Arrange for a back rub.
- Take a piano lesson.
- Walk to the park.
- Have a bubble bath.
- Buy and read a fun magazine.

It is also important for single parents to set up a support system. This might be done by meeting regularly with other parents, close friends, or family members. Organizations such as Parents Without Partners, church groups, recreational groups, and political groups can be sources of support and stimulation.

REFRIGERATOR NOTES

Toilet Training

Most children are trained by three years but don’t worry if your 3-year-old isn’t trained; some children aren’t ready until they are four years old. If your child shows signs of readiness you can begin toilet training about 2-½ years. Avoid rushing or getting into power struggles over this. Do this training when you have the time and patience and don’t have too many other family pressures.

Signs of Readiness

• your child can stay dry for 3 hours or more
• your child recognizes the signs that she has to go
• your child can pull down her pants down and up by herself
• your child seems interested or motivated to become potty trained
• your child is imitating others going to the bathroom
• your child can follow simple instructions

Avoid power struggles
REFRIGERATOR NOTES

Starting Toilet Training

- Dress your child in clothes that are easy to get undone such as elastic-wasted pants
- Use a child-sized potty chair or special adaptor seat with a stool
- Create a routine for sitting on potty—start by seating your child fully clothed once a day, whenever s/he is most likely to have a bowel movement
- Progress to sitting your child on the potty bare-bottomed. Don’t restrain or force your child to sit there
- Let your child watch you or older sibling go to the bathroom
- Show your toddler how you use the toilet paper, flush the toilet and wash your hands
- Praise your child every time she uses the potty seat, or you check and she has dry pants
- Set up a schedule for going to the bathroom
- Make sure your child knows it’s okay to ask for help to go to the potty anytime
- Teach your child how to clean and wash hands after going to the potty
- Expect set backs; don’t make a big deal out of mistakes such as wet beds or accidents—stay calm and positive, “it’s okay, next time I bet you will use the potty chair”
- Once training is established, consider using training pants as this allows a toddler to undress by himself; introduce them gradually maybe for a few hours at a time
- Keep using diapers at night; even though your toddler is dry during the day, it can take months or years before children are dry at night

I expect accidents
NOTE: The handouts in this section may be kept as master copies and photocopied for reuse with your parent groups. All copyright information must be maintained and you may not alter any of the content on these materials. These handouts are also available on our website, www.incredibleyears.com (in Group Leader Resources section).
Handling Separations & Reunions

Home Activities For The Week

To Do:

- **ESTABLISH** your routine for saying good-bye when you leave your child
- **RECORD** your routines for bed time, mornings, toilet time and reading in your journal (bring it to next session)
- **REVIEW** your toddler-proofing safety checklist (pg. 61-66)
- **CALL** your buddy to share one of your routines

To Read:

Read Chapter 5, *Separation, Reunions, Bedtime and Routines* in *Incredible Toddlers*.

Remember to keep playing every day!
REFRIGERATOR NOTES
Handling Separations and Reunions

Most children will have mastered separation anxiety by three years; but temporary episodes of separation anxiety are normal. Toddlers vacillate between wanting to be independent and needing the security of a parent. Especially if your toddler is shy or timid, you will find that helping your toddler cope with separations will result in a more secure and confident preschooler. But don’t worry, there are still many years left before independence is fully achieved.

• Let your child know you are leaving in a predictable, routine way—don’t sneak away to avoid a tantrum or lie about where you are going, as this will only increase your toddler’s insecurity.
• Say good-bye briefly with a hug and say something positive about your expectations for your child’s time away from you. Reassure him in a positive way that he will have a good time when you are gone and that he’s safe.
• Encourage your child’s growing independence.
• If you are leaving your child at day care, let him know when you will see him again and when he will be picked him up and by whom.
• If you are leaving him at home and going out for the evening, let him know who will be taking care of him and when you will be back. For example, “Grandma is coming to play with you tonight while I go out for dinner. I’ll be home after you are in bed, but I’ll come in and kiss you good night.”
• Leave and avoid giving too much attention to the child’s normal protests.
• When you return greet your child with love and joy—let him know you are happy to see him.
• Give your child some transition time to move from his current play experience to leaving with you.
Write out your routine for leaving your child at daycare.
### Refrigerator Notes

**Ensuring Your Toddler’s Safety: Part 1**

Toddlers are driven to explore and are curious about everything—they have no inhibitions and don’t understand danger! Therefore one of the biggest challenges for parents is doing as much as possible to keep your child safe. Do this checklist and see how toddler-proof you are.

<table>
<thead>
<tr>
<th>Action</th>
<th>yes</th>
<th>no</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monitor and supervise my toddler at all times; am vigilant about this.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Toddler-proofed every room in my house</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Keep emergency numbers next to the phone (including a poison control number)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Keep curtain and blind cords out of reach</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Ensured all my windows are lockable and use window guards</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Put plastic covers on electrical outlets</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Unplug electrical appliances when not in use</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Put latches on cupboard doors and drawers</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Keep chairs and cribs away from windows</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Keep small objects such as coins, marbles, batteries and purses out of reach of my toddler</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Keep toilet seat closed at all times. If my toddler is attracted to water, keep the bathroom door closed/locked or use a toilet seat lock</td>
<td></td>
<td></td>
</tr>
<tr>
<td>When bathing child, I do not leave a filling/filled tub unattended. I keep my toddler with me while tub is filling. Once my child is in tub, I do not leave, even for a second. I drain water as soon as my child is out of bath</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Do not leave my toddler alone with my pet and keep litter box in walled off area</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Made sure my plants are not dangerous (called poison control center)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Installed baby gates at the top and bottom of stairs</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Use fire-retardant sleepwear</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Turned down the temperature on my hot water heater</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Locked all medications (including vitamins) in lockable medicine cabinet or cash box that can be stashed on a top shelf</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Keep all products such as shampoo, cosmetics, nail polish remover, household cleaners, scissors, razors out of my toddler’s reach</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Keep electrical hair dryers out of my toddler’s reach</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Keep stuffed animals away from cooking area</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Turn pot handles toward back of stove &amp; secure oven door</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Ensuring Your Toddler’s Safety: Part 2

Toddlers are driven to explore and are curious about everything—they have no inhibitions and don’t understand danger! Therefore one of the biggest challenges for parents is doing as much as possible to keep your child safe. Do this checklist and see how toddler-proof you are.

<table>
<thead>
<tr>

OUR FAMILY ROUTINES

Write out your bedtime routine here.
OUR FAMILY ROUTINES

Write out your morning routine here.
REFRIGERATOR NOTES

Tips to Establishing Your Toddler’s Healthy Sleep Habits

• Set bedtime and regular nap times to regulate sleep patterns.
• Choose a bedtime that fits your family schedule and stick to it as much as possible.
• Establish a bedtime routine such as:
   playtime, bath, pajamas, tooth brushing, story, song and kiss good night.
• Praise your child for staying in his own bed all night.
NOTE: The handouts in this section may be kept as master copies and photocopied for reuse with your parent groups. All copyright information must be maintained and you may not alter any of the content on these materials.

These handouts are also available on our website, www.incredibleyears.com (in Group Leader Resources section).
Positive Discipline: Effective Limit Setting
“The Importance of Being Clear, Predictable, and Positive”

Home Activities for the Week

To Do:

- **DECREASE** the number of commands you give to those that are most important.
- When necessary, **GIVE RESPECTFUL AND SPECIFIC COMMANDS**.
- **PRACTICE** giving “first-then” and “when-then” commands.
- **USE** distractions & redirection & give choices when possible.
- **MONITOR** and record the frequency and type of commands you give at home for a 10-minute period. Rewrite any negative commands to positive commands (pg. 321-323)
- **PRAISE** your child every time he or she complies with an instruction.
- **CALL** your buddy to talk about your household rules, effective distractions & redirections and how you limit TV watching.

To Read:
Chapter 6, *Positive Discipline and Effective Limit Setting*, in *Incredible Toddlers*.

*Remember to keep playing every day!*
Positive Discipline: Effective Limit Setting
“The Importance of Being Clear, Predictable, and Positive”

Home Activites for the Week

To Do:

- **DECREASE** the number of “no’s” you give – try redirecting and distractions when possible.
- When necessary, **GIVE RESPECTFUL AND SPECIFIC COMMANDS**. Avoid using question commands, “let’s” commands, negative commands, vague commands, and chain commands. Give children transition time when possible.
- **RECORD** some positive coping thoughts you will use to stay calm (pg. 318).
- **CALL** your buddy to talk about your household rules, effective distractions & redirections and how you limit TV watching.

To Read:
Chapter 6, **Positive Discipline and Effective Limit Setting**, in Incredible Toddlers.

Remember to keep playing every day!
**Brainstorm**

1. What are the possible benefits for your children having clear limits in your home?
2. What gets in the way of setting limits?

Write down the benefits of having clear limits and your difficulties in doing it. See if you can find any solutions to your barriers to setting clear limits.

<table>
<thead>
<tr>
<th>Benefits of Setting Limits</th>
<th>Difficulties in Doing This</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Goal:**

I will commit to reducing the number of commands or requests to those that are most important. Instead, I will focus on giving choices when possible, using distractions and when-then commands.
## RECORD SHEET: COMMANDS

<td></td>
</tr>
</tbody>
</table>

Example of First/Then Command or Distraction
• Don’t give unnecessary commands.
• Give one command at a time.
• Be realistic in your expectations and use age-appropriate commands.
• Use “do” commands.
• Make commands positive and polite.
• Limit use of “stop” or “no” commands.
• Give children ample opportunity to comply.
• Give warnings and helpful reminders.
• Don’t threaten children; use “when-then” commands.
• Give children choices whenever possible.
• Make commands short and to the point.
• Support your partner’s commands.
• Praise compliance or provide consequences for noncompliance.
• Strike a balance between parent and child control.
• Use distractions and redirection when possible.
Excessive screen time can interfere with children’s development of friendships, impact their physical fitness, contribute to obesity and lack of sleep, and decrease their interest in reading and their motivation for school success. Violent screen time content has been shown to increase children’s aggressive behavior and hostility. Here are some tips for helping your child develop healthy screen time habits, while minimizing their negative effects.

Set household rules regarding how much screen time your child is allowed. The American Academy of Pediatrics (AAP) recommends the following:

• For children under 2 years, discourage all screen time.
• For children 2-5 years, limit to one hour/day of high quality programming
• For children 6-12 limit to 90 minutes/day

Supervise and monitor the content children are consuming. Decide which program, games, or sites are healthy as well as those that cannot be viewed or played. Websites such as Common Sense Media [https://www.commonsensemedia.org/] can provide a guidance on media content that is appropriate for children of different ages.

Take an active role in your children’s media education by watching TV programs with them and participating in their computer games so you can mitigate their negative effects and enhance their use as a way to promote interaction, connection and creativity. For example you can promote your child’s social skills and empathy by talking about movie characters who are sensitive and caring, or in other cases, you can discuss a bad decision or disrespectful behavior of a character. When watching commercials, have discussions about the purpose of commercials and the messages that they send about unhealthy food or consumerism.

Keep all screens in common rooms of your house so that you can monitor or track your child’s screen time use. Help your child turn off the screen when he or she has reached the daily limit. Praise and reward your child for healthy viewing habits and following the screen time rules.

Set a bedtime that is not altered by screen time activities and avoid screen time 1 hour prior to bedtime. Don’t put computers, smartphones or TVs in your child’s bedroom.

Strive for balance between screen time activities and other activities involving social interactions, making friends, physical activity, reading or some other special play time. Have some designated time periods or days that are “screen time-out” times for all family members. Promote a healthy media diet that encourages social, emotional and physical health.

Set a good example by modeling healthy screen time habits.

See [https://www.healthychildren.org/English/media/Pages/default.aspx] for a tool developed by American Academy of Pediatrics to develop your own family media plan.
Help your children understand the health benefits of being physically active every day. During child directed play, offer options of playing tag or Frisbee, jumping rope, swimming, dancing, playing soccer or taking a walk to the park with you.

Avoid making comments about weight (your own or your child’s). Instead, use language that focuses on healthy choices and strong bodies that allow you to be active (walk, play, climb, dance, etc.).

Limit your child’s total screen time to no more than 1 hour a day. Avoid screen time for children under 2 years of age.

Provide healthy snacks: for example fruit or vegetables to dip in yogurt or hummus. Avoid continuous snacking, and instead, offer food at predictable meal and snack times. Limit high-fat, high-sugar, or salty snacks.

In the context of otherwise healthy eating, offer moderate amounts of “treat” foods to help children learn to regulate their intake of sweets.

At mealtimes provide a variety of health foods; fruits and vegetables, whole grains, lean meats; avoid foods high in trans fats and/or saturated fats.

Allow your child to serve him/herself. Do not require children to clean their plates and do allow them to have more of anything healthy that is being served. This will help them learn to pay attention to their own hunger signals.

Do not put your child on a weight reduction diet unless your physician supervises. For most young children, the focus is maintaining current weight, while growing in height.

Offer children water or low/non-fat milk. Limit soda and juice intake.

Have predictable family meals together where you have time to talk and enjoy the meal together. Establish dinner as a “no screen” time.

Involve children in food planning, shopping, and meals preparation.

Check that your child care providers are encouraging healthy eating and limiting junk food.

One of the most powerful ways your children learn to be healthy is by observing you. Therefore, model being physically active, buy and eat healthy foods, express your enjoyment of food and family meals, and model positive talk about your family’s healthy bodies.
HOUSEHOLD RULES

Some Examples:
1. Bedtime is at 7:30 p.m.
2. No hitting allowed.
3. Must sit in back of car in car seat.
4. Trike riding is only allowed on the sidewalk, not in the street.

Your List of Household Rules:
1.
2.
3.
4.

Every home needs a limited number of “house rules.”
If the list gets too long, no one will remember the rules.
OUR FAMILY RULES

Write out your list of household rules
**Brainstorm**
Rewrite the following ineffective commands into positive, clear, respectful commands.

<table>
<thead>
<tr>
<th>Ineffective Commands</th>
<th>Rewrite</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Shut up</td>
<td></td>
</tr>
<tr>
<td>• Quit shouting</td>
<td></td>
</tr>
<tr>
<td>• Stop running</td>
<td></td>
</tr>
<tr>
<td>• Watch it</td>
<td></td>
</tr>
<tr>
<td>• Why don’t we go to bed?</td>
<td></td>
</tr>
<tr>
<td>• Let’s clean up the living room</td>
<td></td>
</tr>
<tr>
<td>• Cut it out</td>
<td></td>
</tr>
<tr>
<td>• What is your coat doing there?</td>
<td></td>
</tr>
<tr>
<td>• Why are your shoes in the living room?</td>
<td></td>
</tr>
<tr>
<td>• Don’t shove salad in your mouth like a pig</td>
<td></td>
</tr>
<tr>
<td>• Why is your bike still in the driveway?</td>
<td></td>
</tr>
<tr>
<td>• You look like a mess</td>
<td></td>
</tr>
<tr>
<td>• Stop bugging your sister</td>
<td></td>
</tr>
<tr>
<td>• You are never ready</td>
<td></td>
</tr>
<tr>
<td>• Your clothes are filthy</td>
<td></td>
</tr>
<tr>
<td>• This room is a mess</td>
<td></td>
</tr>
<tr>
<td>• Don’t whine</td>
<td></td>
</tr>
<tr>
<td>• You are impossible</td>
<td></td>
</tr>
<tr>
<td>• Stop dawdling</td>
<td></td>
</tr>
<tr>
<td>• Hurry up</td>
<td></td>
</tr>
<tr>
<td>• Be quiet</td>
<td></td>
</tr>
<tr>
<td>• Why are you riding on the road when you’ve been told not to?</td>
<td></td>
</tr>
<tr>
<td>• I’ll hit you if you do that again</td>
<td></td>
</tr>

Handling Misbehavior: Ignoring

Home Activities for the Week

To Do:

- **CONTINUE PLAYING** with your child every day for at least 10 minutes
- **USE A DISTRACTION** or a diversion when possible to pre-empt a problem (Or divert yourself!)
- **IGNORE** one misbehavior you want to decrease & journal your goal (pg. 372-373)
- **PRAISE** your child for the “positive-opposite” behavior to the negative behavior you want to decrease
- **RECORD** using self-praise and challenging negative thoughts with positive, coping thoughts (pg. 375)

To Read:

Chapter 7, Positive Discipline - Handling Misbehavior, in Incredible Toddlers.
Helping Children Learn to Calm Down

Home Activities for the Week

To Do:

• **DO** emotion coaching during play times and focus on times your child is calm, patient and peaceful
• **USING** puppets or books, talk about ways to calm down by taking a deep breath and going into your shell or using a thermometer picture
• **MODEL** using calm down strategies yourself for your child to see.
• **COMPLETE** Parents Thinking Like Detectives handout (pg. 381-384)
• **REVIEW** IY Problem Solving worksheet (pg. 385-388)

To Read: 

Chapter 8, *Putting it All Together*, in *Incredible Toddlers*. 
**Brainstorm**

Behaviors such as throwing tantrums, whining, pouting, sulking, and screaming, are good candidates for ignoring. These behaviors are annoying, but they never really seem to hurt anyone, and the behaviors will disappear if they are systematically ignored. The ignoring technique should not be used, however, with behaviors that could lead to physical injury or property damage, or intolerable disruption of an ongoing activity.

Parents often have trouble controlling their anger when dealing with misbehavior, and find it hard not to criticize the child. This emotional involvement can make it difficult to ignore your child’s arguments or to praise compliance when it finally does occur. However, ignoring is one of the most effective strategies you can use.

**Child Behaviors I will Ignore**

e.g., whining

**Goal:** I will commit to ignoring __________________________________________

behavior whenever it occurs. I will praise ____________________________

behavior, the positive opposite of the behavior I am ignoring.
**Brainstorm**

When you first start ignoring misbehavior, the behavior will get worse before it gets better. It is important to be prepared to wait out this screaming period. If you give in to the tantrum, this behavior will be reinforced and your child will learn that by crying and screaming loudly, he or she can get his/her own way.

It is important to stay calm while ignoring. Try to think ahead and brainstorm ways to remain calm when ignoring misbehavior.

**Ways to Stay Calm While Ignoring**

- deep breaths
- relaxation techniques
- positive thoughts
- walk away
- turn on some music
- put angry thoughts in parking lot!

Remember, all young children cry, bite and hit to get what they want. This is not personal but a reflection of their lack of verbal skills and inability to use social skills to get what they want.

**Goal:** I will commit to tell myself the following ________________________
___________________________________________________________________
___________________________________________________________________

when my child misbehaves.
Brainstorm: Using Differential Attention

Sometimes, children will show positive and negative behaviors during the same activity. For example, a child might follow directions (positive behavior) while whining or fussing (negative behavior). **Differential attention** is the technique where a parent praises the positive behavior while ignoring the negative behavior. For example, a parent might praise the child for following directions, and pay no attention to the whining or fussing behavior. This way, the child learns that she will receive positive attention for some behaviors, but will not receive attention for other behavior (e.g., whining).

Think about some situations where this kind of differential attention could be effective.

**When Would Differential Attention be Effective?**

*e.g., when child is following directions and fussing at the same time I will praise his cooperation and ignore his fussing.*

**Goal:** I will commit to praising ________________________________
behavior while ignoring ________________________________
behavior.

REFRIGERATOR NOTES
Positive Discipline Helps My Toddler Feel Loved and Secure

• Play frequently and provide social and emotional coaching
• Label and reflect your toddler’s feelings—even negative feelings
• Structure your toddler’s day with a predictable routine for mornings, naps, meals and bedtime
• Set clear limits when needed to keep your toddler safe
• Help your toddler prepare for transitions or changes in routine
• Have a predictable routine for leaving your child and reuniting
• Give your toddler choices when possible
• Share your love and praise and tell your toddler how special he is
• Give your toddler attention and praise for positive behavior
• Redirect your toddler’s negative behavior
• Allow your toddler independence when possible
• Help your toddler explore while giving appropriate support
• Ignore tantrums and give back attention as soon as tantrum stops
• Take care of yourself by getting support from others and doing things for yourself
REFRIGERATOR NOTES
ABOUT IGNORING

• Avoid eye contact and discussion while ignoring
• Physically move away from your child but stay in the room
• Be prepared for testing
• Be consistent
• Return your attention as soon as misbehavior stops
• Combine distractions and redirections with ignoring
• Choose specific child behaviors to ignore and make sure they are ones you can ignore
• Limit the number of behaviors to systematically ignore
• Give more attention to the positive opposite behaviors you want to encourage

Stay calm and in control

Be prepared for testing

I can stay calm
REFRIGERATOR NOTES
Teach Calm Down Strategies

- When your child is calm practice taking deep breaths and praise your child by telling him he is very strong at calming down
- Notice times when your child stays calm in a frustrating situation and praise her for her patience and calmness
- Use emotion coaching and comment on times your toddler is happy, excited, curious, calm, angry or frustrated. Try to comment on more happy feelings than angry or sad ones
- Model staying calm yourself in frustrating situations—take a deep breath—say, “I can calm down” in front of your child

I can redirect and re-engage my child
Tiny's Anger Management Steps

#1. Think Stop

#2. Think Stop

#3. Take a Slow Breath

#4. Withdrawing into Shell

#5. Try again!
REFRIGERATOR NOTES
Managing Biting and Hitting

If your child bites or hits another child:

• Separate the children immediately
• Use kind but firm limit setting “no biting,” “no hitting”
• Stay calm
• Help child who was bitten or hit to say “I don’t like that”
• If possible, provide your child with words to resolve the conflict that led to the biting or hitting; “e.g., looks like you want a truck too, you can say, “I want a truck, please.” (even if your child can’t say these words, you have still modeled a better coping strategy).

If your child bites or hits you:

• Do your best to stay calm, even though the bite or hit may startle you and hurt
• Use kind but firm limit setting “no biting” and briefly put your child down or move away just a foot or two
• Tell your child that the biting hurt
• Ignore child for 1–2 minutes
• Redirect and reengage your child in a new activity, or provide her with words to communicate the reason for the bite.
REFRIGERATOR NOTES
Handling Tantrum Storms

Daily tantrums are a normal part of the toddler years. They occur because developmentally toddlers lack the verbal skills to communicate their feelings or wants, and have an immature emotional self-regulation system. This coupled with a strong drive to explore and be independent is a recipe for frustration for your toddler.

- Stay calm in the face of your toddler’s storm—including kicking, screaming, throwing things or hitting.
- Don’t try to reason or use a distraction with your toddler in the middle of a storm— the more you reason or yell, the worse the storm will rage.
- Stay in the room with your toddler while the storm occurs, but ignore the tantrum; do something else.
- Wait for the storm to subside and then return your attention immediately; praise your child’s calm behavior and distract him to some other activity.
- No matter how long the storm lasts, don’t give in or negotiate—even when you are in public. This short-term solution will lead to longer-term consequences of escalating tantrums and using these to get what he wants.
- Stay calm and in control—a tantruming child is feeling out of control and needs to feel that his parent is in control.
- If your toddler’s tantrum escalates to hitting people or pets, or breaking objects, pick him up and carry him to a safe place. Then stay with him but ignore the tantrum.
- Think about why your child might be tantruming.
- Try to pre-empt storms when possible.

Think about why and when your child’s tantrums occur—is it when your child is hungry? Or, tired? Or, involved in a transition to some other activity? Or, can’t have something s/he wants? This might mean keeping snacks on hand, or, setting an earlier nap time, or preparing your child for a transition in advance which will give him a chance to adjust. If your child is grappling with control or independence issues, try offering choices when possible. Monitor how often you are saying “no”—are your limits necessary? Keep your battles for the important issues.

Remember—even with all your prevention strategies—toddlers will still tantrum and need to develop the self-regulation skills to calm down.

Part 8B: Handling Misbehavior ©The Incredible Years®
**Incredible Years® Problem Solving Worksheet**  
*For Managing Toddlers’ Challenging Behaviors!*

**Problem Definition:**

1. My child’s challenging behavior:  ____________________________________________________

   ________________________________________________________________________

2. What are the triggers/precipitants of my child’s misbehavior? (developmental problem, not enough sleep, not getting what he wants, a family transition or stress, low frustration tolerance, etc.)

   ________________________________________________________________________

   ________________________________________________________________________

3. How do I usually respond to this misbehavior? (Do I give it attention? Do I get angry?)

   ________________________________________________________________________

   ________________________________________________________________________

**Goals:**

4. What is my goal? What positive opposite behavior do I want to see instead? ___________

   ________________________________________________________________________

   ________________________________________________________________________

**Solutions:**

5. What skills/strategies can I use from the bottom of the Pyramid to support this positive behavior?

   Play/Special Time: What kind of play or special time might best help my child here? (Remember, it is best if it is child-led.) (persistence, academic, social, or emotion coaching) _______

   ________________________________________________________________________

   Praise: What behaviors can I praise and how? (Remember they should be the “positive opposites” of the behaviors you want to decrease.) ________________________________

   ________________________________________________________________________

   Stickers and Rewards: How can I reward this good behavior? What incentives will motivate my child? _______________________________________________________________________

6. Choose from the list below those responses from the top of the pyramid than can be used to reduce this misbehavior.

   Routines: Do I have a predictable routine for this problem? __________________________

   ________________________________________________________________________

   Distraction/Redirection: How can I distract or redirect my child before misbehavior escalates? __________________________

   ________________________________________________________________________
Ignore: What part of this behavior could I ignore? ____________________________________________
________________________________________________________________________________

What will I say to myself while I ignore it? ________________________________________________
________________________________________________________________________________

Consequence: What natural or logical consequence can I use to teach my child to change this
behavior? ___________________________________________________________________________

Calm Down Strategies: What calm down strategies can I teach my child? (use of turtle shell,
depth breathing, positive self-talk “I can do it, I can calm down,” use of the calm-down ther-
nometer) ___________________________________________________________________________

**Carrying Out my Plan:**

7. To whom should I communicate this plan? (teachers, grandparents, partners, etc.) _______
________________________________________________________________________________

8. Who can I call for support and to check in? ____________________________________________
________________________________________________________________________________

9. How will I take care of myself while this is going on? __________________________________
________________________________________________________________________________

**Evaluating the Success of Solutions**

10. How will I know I am making progress? What will be different? ________________________
________________________________________________________________________________

11. How will I celebrate my child’s success? As well as my own? ___________________________
________________________________________________________________________________

**Congratulations! You have a plan to change your child’s behavior!**

*Remember, it can take three weeks or more to see changes, so don’t give up!*
Brainstorm

Think about ways to stay calm, assertive and patient when frustrated with your child.

Practice challenging negative self-talk and substituting positive self-talk and coping statements. On your notepad, write down some self-talk that you can use when you feel anger mounting.

Positive Self-Talk

I can handle this…
I can control my anger…
I will take a brief Time Out myself…

Challenge irrational thoughts
### Handout

Learning Self-Control

Many family members find that in stressful situations they cannot maintain their self-control. Others report they suffer from chronic anger, anxiety or depression, and they are easily set off by the slightest event. However, when parents allow themselves to become so overwhelmed that they overreact, the consequences can be unfortunate. Parents may say or do something they will regret. After they calm down, they may feel guilty and avoid dealing with the child for fear of repeating the episode. It is frightening and anxiety-provoking for a child to see a parent lose control. Also, the child learns to imitate these aggressive behaviors in other situations. These cycles of parental overreaction and avoidance make it difficult to deal with the child in a consistent manner. The best approach is to achieve a middle ground—not be so overwhelmed that you can’t respond or so upset that you overreact.

Upsetting Thoughts

“That child is a monster. This is getting ridiculous. She’ll never change.”

“I’m sick of being his maid. Things are going to change or else!”

“He’s just like his father.

“I can’t handle it when she’s angry.”

Calming Thoughts

“This child is testing to see if he can have his own way. My job is to stay calm and help him learn better ways to behave.”

“I need to help organize her toys and only bring out 1 or 2 toys at a time. I can help her learn to pick up.”

“I can handle this. I am in control. She has just learned some powerful ways to get control. I will teach her more appropriate ways to behave.”

Thought Control

Researchers have demonstrated that there is a relationship between how we think and how we behave. For example, if you view the child in hostile terms (“He is misbehaving because he hates me — he likes to get me upset”), you are likely to become very angry. On the other hand, if your thoughts emphasize your ability to cope (“I’m going to have to help him learn to control himself”), this will help to bring about rational and effective responses. One of the first steps for improving the way you think about your child is to replace upsetting thoughts and negative self-statements with calming thoughts.
Write your own positive coping statements and practice them during the week.
Handout

*Self-Talk in Problem Situations*

Identify a problem situation and the upsetting thoughts you have at the time. Write down some alternative calming thoughts that you might use to redefine the situation. Next time you find yourself using negative self-talk, give yourself some time to think positively and consider the alternatives available to you for dealing with the situation.

PUTTING IT ALL TOGETHER

1. Identify and label your emotions when they first occur. Pay attention to how your body feels (for example, tenseness, fidgeting, anger, headaches).

2. Decide what events make you feel frustrated.

3. Choose the most effective way to control yourself, and do it.

**Non-constructive Thoughts**

“John never helps. All I get is work, work, work. I fix the food, take care of the house, the kids, everything. Boy, would I like to throw this at him!”

“After working 10 hours, I’m tired and frustrated. When I get home, all I get are hassles. The kids interrupt and yell, and Joan criticizes me. This place is a mess. What does she do all day? I feel like screaming or walking out of here.”

**Constructive Thoughts**

“I’d better watch it and calm down before I do something I’ll regret. What I need is help. Maybe if I ask John in a nice way, he’ll give me some help. That’s the best way. Then maybe I can have a relaxing bath.”

“Take it easy now. Take a few breaths. What I really need is a few minutes of peace to relax and read the paper. Maybe if I ask Joan nicely to play with the kids while I read, then I could give her a break and play with the kids later. She needs a rest too. That’s the most helpful way. I can already feel myself relaxing.”

“I can handle this. I can stay in control. “She’s just testing the limits. My job is to stay calm and help her learn better ways.”
**Feelings**
- Furious
- Contemptuous
- Angry
- Defensive
- Guilt
- Withdrawn
- Frustrated
- Depression
- Irritated
- Anxious
- Worried
- Alert/Interested
- Receptive/Open to Influence/Flexible
- Calm
- Happy
- Confident
- Content
- Loving/Affectionate

**Physiological Signs**
- Heart racing
- Neck muscles tight
- Chest tight
- Clenched fists
- Teeth clenched
- Headache
- Shallow rapid breathing
- Increased perspiration
- Muscles tense
- Pacing
- Headache developing

**Behaviors**
- Yelling
- Hitting
- Threatening
- Withdrawing
- Stonewalling
- Criticizing
- Difficulty listening
- Thinking narrow
- Less open to new ideas
- Calm
- Pleasant
- Able to problem-solve
- Able to listen

**Self-Talk**

I’m so mad I could hurt…  
S/he deserves to be…  
S/he is no good/rotten.  
What did I do to deserve…  
It’s not my fault; it’s his/hers.  
S/he’s just like…  
I was never like this.  
I think s/he’ll end up in jail.  
I don’t have time to deal with this.  
I’m a bad parent (partner). I’m hopeless  
Why me? This is too stressful.

It’s not working to stay calm.  
It’s useless…  
There’s no point in doing anything for him/her.  
It never helps.  
No matter what I do, nothing changes.  
S/he just throws it back at me.  
I deserve this for what I did when…

My parents told me I was...(a criticism)  
What’s going to happen when s/he’s a teenager?  
I’m getting stressed; I need to take a personal Time Out.  
Maybe this is too much for me to handle.  
Maybe I’m not a good parent/spouse.  
I’m not sure I can do this.

When change occurs, it’s supposed to get worse  
before it gets better.  
I can make a difference to our future.  
Stress is a normal part of any relationship.  
This stage won’t last forever. Things will get better.  
I can handle this; I can control my anger.  
I can teach him to…  
Problems occur so we can all learn to manage conflict.  
I can talk to him about…and come up with some solutions.  
We’ll manage; we all need learning trials.  
Everyone makes mistakes.  
I can help by…  
His/her positive qualities are…  
I’m a caring parent/partner because I’m trying by…  
I stay calm most of the time.  
I enjoy being with him/her, especially when we…  
I love (appreciate)…

Congratulations!

You have finished the Parent Program! Take a moment to congratulate yourself and reward yourself for all of your hard work.

We also recommend that you read the other chapters in the Incredible Years book to prepare yourself for the next phase of your child’s growth and development.
