Training led by: Kimberlee Shoecraft, MSW

In-depth discussion and training for group leaders in the empirically supported Incredible Years® programs.

**Monday & Wednesday
afternoons 12:15 - 3:30 PT
December 14 & 16, 2020
\$310**

ABOUT THE TRAINING

This online 2-day supplemental training will prepare group leaders to adapt the Incredible Years parent group-based model to a one-on-one parent-coach model.

Group leaders who have previously attended a BASIC Parent Group Leader training may register for this online 2-day supplemental training. The Home Coaching program can be used to deliver the entire parenting curriculum or for a make-up session for parents who have missed a group session. The home coaching model is a good option if parents cannot attend a group due to schedule conflicts or if there is an extended delay before the next parent group will be offered. This model can also be used as a supplement to the group for parents who need additional coaching with their children. Prior attendance in a Basic Parent Group Leader Training is a prerequisite for the Home Coach training.

Our online trainings are intended to be highly interactive and collaborative. Attendees should plan for active participation!

ABOUT THE TRAINER

Kimberlee Shoecraft, LICSW, began her work with Incredible Years in 2006 by providing the Incredible Years® parenting groups for the WA state child welfare population. Since then, she has trained and provided clinical consultation for thousands of group leaders all over the world. Kimberlee's background includes psychiatric social work, evidence-based program training, implementation, and dissemination in WA state as well as, working in several African and Middle Eastern countries on the training and dissemination of social service programs.

Goals of the parent training series:

- Promote parent competencies and strengthen families.
- Increase positive and nurturing parenting.
- Reduce critical and violent discipline approaches by replacing spanking with positive strategies such as ignoring, using logical and natural consequences, redirecting, monitoring, and problem solving.
- Improve parents' problem solving, anger management, and communication skills.
- Increase family support networks and school involvement/bonding.
- Help parents and teachers work collaboratively to ensure consistency across settings.
- Increase parents' involvement in children's academic-related activities at home.
