Portland, OR 97211

Dear Colleagues at Morrison Child and Family Services:

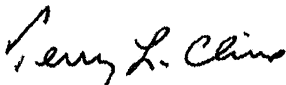

On behalf of the Substance Abuse and Mental Health Services Administration (SAMHSA), I am extremely pleased to bestow upon Morrison Child and Family Services a 2007 SAMHSA Science and Service Award.

The award acknowledges your organization's outstanding efforts in the implementation of one or more evidence-based interventions, and reflects your commitment to promoting greater use of effective services in your community. Specifically, the success that your organization has demonstrated in implementing evidence-based services, and the positive effect that these services have had on your clients and their families is visible proof of the importance and direct benefit of reducing the research to practice gap.

In addition to the commemorative award, Morrison Child and Family Services will be featured on a SAMHSA web page highlighting each of this year's Science and Service Award winners.

Congratulations on this accomplishment!

Sincerely,

Terry L. Cline, Ph.D.
Administrator
