About the Training:

This online 2-day supplemental training will prepare group leaders to lead the 12-16 session School Age Basic program with parents of children aged 9-12 years. The training teaches the following content: special time (play), academic, social and emotional coaching, praise and incentives, rules and responsibilities, limit setting, prosocial discipline, problem solving and ways to foster homework completion and after school monitoring. In addition, ways to support children's learning at school guides the progression of the course and the order of the content building blocks.

Group leaders who have previously attended a BASIC Parent Group Leader training that includes early School Age (ages 6-8) may register for this online 2-day supplemental training workshop for using the School Age program with parents of children ages 9-12.

Our online trainings are intended to be highly interactive and collaborative. Attendees should plan for active participation!

About the Trainer:

Kimberlee Shoecraft, LICSW, began her work with Incredible Years in 2006 by providing the Incredible Years[®] parenting groups for the WA state child welfare population. Since then, she has trained and provided clinical consultation for thousands of group leaders all over the world. Kimberlee's background includes psychiatric social work, evidence-based program training, implementation, and dissemination in WA state as well as, working in several African and Middle Eastern countries on the training and dissemination of social service programs.

Goals of the parent training series:

- Promote parent competencies and strengthen families.
- Increase positive and nurturing parenting.
- Reduce critical and violent discipline approaches by replacing spanking with positive strategies such as ignoring, using logical and natural consequences, redirecting, monitoring, and problem solving.
- Improve parents' problem solving, anger management, and communication skills.
- Increase family support networks and school involvement/bonding.
- Help parents and teachers work collaboratively to ensure consistency across settings.
- Increase parents' involvement in children's academic-related activities at home.
